INTEGRATIVE MEDICINE

Preventive Services Most Commonly Covered at No or Low Cost

Preventive care services are designed to help patients stay healthy, identify potential health concerns early, and reduce the risk of future illness. Depending on your age, health history, and individual risk factors, preventive care may include routine wellness exams, developmental and health-risk screenings, counseling, vaccinations, and other recommended services.

We identified the preventive services below that we offer as those most likely to be covered without a copay, coinsurance, or deductible when they meet your plan's preventive-care requirements.

Coverage is determined by your individual health plan. Even when a service is generally considered preventive, your plan may apply out-of-pocket costs depending on factors such as your age, medical history, frequency of the service, network status, and whether the service is performed for preventive or diagnostic reasons.

Please contact your insurance company before your visit to confirm that a specific service will be covered without a copay, coinsurance, or deductible.

Preventive Physical Exams

Routine preventive visits are designed to help you stay well, identify health risks early, and keep you up to date on recommended screenings and preventive care.

New Patients

- 99381 – Preventive visit, infant under age 1
- 99382 – Preventive visit, age 1–4
- 99383 – Preventive visit, age 5–11
- 99384 – Preventive visit, age 12–17
- 99385 – Preventive visit, age 18–39
- 99386 – Preventive visit, age 40–64
- 99387 – Preventive visit, age 65+

Established Patients

- 99391 – Preventive visit, infant under age 1
- 99392 – Preventive visit, age 1–4
- 99393 – Preventive visit, age 5–11
- 99394 – Preventive visit, age 12–17
- 99396 – Preventive visit, age 40–64
- 99397 – Preventive visit, age 65+

Preventive Screenings & Health Assessments

These services help identify potential developmental, behavioral, metabolic, and visual concerns before they become larger health problems.

- 96110 – Developmental screening
- 96161 – Caregiver-focused health-risk assessment
- 99173 – Vision screening
- 82947 – Blood glucose screening

Tobacco, Alcohol & Substance-Use Prevention

Preventive counseling can help identify health risks and support healthier choices before more serious health problems develop.

- 99406 – Tobacco cessation counseling, 3–10 minutes
- 99407 – Tobacco cessation counseling, more than 10 minutes
- 99408 – Alcohol or substance-use screening and brief intervention, 15–30 minutes

Vaccines & Immunizations

Vaccines are an important part of preventive care throughout childhood, adolescence, and adulthood. Coverage depends on your age, vaccination history, medical risk factors, and your plan's current immunization benefits.

Vaccine Administration

- 90460 – Pediatric immunization administration with counseling; first vaccine component
- 90461 – Pediatric immunization administration with counseling; each additional component
- 90471 – Administration of first injected vaccine
- 90472 – Administration of each additional injected vaccine
- 90474 – Administration of each additional oral or intranasal vaccine

Hepatitis

- 90633 – Hepatitis A vaccine, pediatric/adolescent
- 90744 – Hepatitis B vaccine, pediatric/adolescent
- 90746 – Hepatitis B vaccine, adult

HPV

- 90651 – 9-valent HPV vaccine

Tetanus, Diphtheria & Pertussis

- 90700 – DTaP vaccine

- 90715 – Tdap vaccine

Measles, Mumps, Rubella & Varicella

- 90707 – MMR vaccine
- 90710 – MMRV combination vaccine
- 90716 – Varicella vaccine

Polio

- 90713 – Inactivated poliovirus vaccine

Haemophilus influenzae Type B

- 90648 – Hib vaccine

Meningococcal

- 90619 – Quadrivalent meningococcal conjugate vaccine

Pneumococcal

- 90670 – Pneumococcal conjugate vaccine

Shingles

- 90750 – Recombinant zoster/shingles vaccine

Rotavirus

- 90681 – Rotavirus vaccine

Combination Childhood Vaccines

- 90696 – DTaP-IPV
- 90697 – DTaP-IPV-Hib-HepB
- 90698 – DTaP-IPV-Hib
- 90723 – DTaP-HepB-IPV

Please Confirm Your Benefits. This list is not a guarantee of coverage or payment.

Your insurance company determines whether a service qualifies as preventive and whether you will owe a copay, coinsurance, deductible, or other cost.

Before receiving services, we recommend confirming:

- That your provider is covered by your plan
- That the specific service is covered under your preventive benefits
- Whether age, frequency, or medical-risk requirements apply
- Whether associated laboratory, vaccine, or administration charges are also covered
